Front line leadership for effective productivity

Overview

A frontline leader makes decisions, develops policies, uses their judgment and discretion and oversees implementation of improvements. If there's a problem, they identify the issue and escalate it. On the contrary, an organization's flexibility to change and productivity can be greatly increased by enabling your frontline managers to become frontline leaders. This Program will bring an impact on various areas such as ownership at work, accountability and taking initiative at work, problem to solution approach, enhancement in level of employee engagement, learning attitude, self motivation, performance v/s productivity or benefits.

Focus Areas

- Collaborative approach to effective productivity.
- Priority management and effective decision making
- Commitment v/s Accountability
